Preprogrammed, Finely Tuned Blend Cycles

No more guesswork! The Designer Series features six preprogrammed custom cycles: Smoothie, Ice Cream, Whole Juice, Hot Soup and Clean. Exclusive with the 675 comes the "+10" button, allowing you to add an extra ten seconds to any blend cycle with ease. Our preprogrammed cycles create the perfect blends with the touch of a button.

8 Manual Speeds + Pulse

You now have total control of your blending speed literally at your fingertip with our total control slider interface. With the simple touch or sliding of your finger, you have complete control over your blending speed. Select any speed or slide from left to right to increase or decrease speed. Alongside the slider bar are the stop and pulse controls.

WildSide+ Jar

It's the jar that revolutionized high-speed blending. The WildSide+ jar features an extra-wide wide base and a narrow fifth "wild" side that helps create a faster, smoother blend. The WildSide+ jar also features two vertical ridges on the interior walls to disrupt the blending pattern even further and accelerate the blend. The result? The fastest, smoothest blend yet.

Package includes:

- WildSide+ jar
- Latching Lid

The WildSide jar combines with your Blendtec blender to maximize blending performance.

- Increases blending efficiency for frozen ingredients by up to 25%
- Blunt safety blade is 80% thicker and ten times stronger than other blades
- Patented fifth side allows for bigger, faster blends
- Made from impact-resistant, BPA-free copolyester
- Compatible with all Blendtec consumer blenders
